Prof. Jan-Chi Yang received his PhD degree from National Chiao Tung University, Taiwan, in 2014. During his PhD career, he has learned skills and expertise to process and characterize complex oxide materials. Over the past years, he focused on the growth and creation of functional materials, interfaces, heterostructures, nanostructures and free-standing matters via laser-MBE techniques, and recently he's trying to use the synchrotron-based and transport techniques to reveal the answers to the charming physics in quantum material systems. His main goal is to strike an elegant balance between materials science and physics for creating quantum materials with new functionalities and for unveiling the intriguing interplays beneath. His papers have been published in *Nature Mater.*, *Nature Commun.*, *Phys. Rev. Lett.*, *Advanced Mater.*, *ACS Nano*, *Nano Letters*, *PRB*, and so on. He has extensive experience in the use of advanced characterization techniques to understand and to manipulate complex oxides and strongly correlated systems. His expertise also includes the processing and the characterization via advanced electronic devices. The current goal of him is to use advanced growth and synchrotron-based techniques to understand the free-standing complex oxides with natural periodicities and low-dimensionality, which enable us to reveal the fancy interplays between the charge, spin, orbital and lattice degree of freedoms.

Research Expertise and Interests

- Complex oxides
- Laser molecular beam epitaxy/ Pulsed laser deposition
- X-ray absorption spectroscopy/ Synchrotron radiation
- Thin film fabrication and devices
- Novel oxide nanoelectronics
- Fabrication and characterization of functional materials
- Multifunctional heterostructures, interfaces, and mesocrystals
- Fabrication and characterization of advanced nanostructures and nanoparticles

Professional Preparation

Aug 2019 ~ present

Associate Professor

Department of Physics, National Cheng Kung University, Tainan, Taiwan

Aug 2016 ~ July 2019

Assistant Professor

Department of Physics, National Cheng Kung University, Tainan, Taiwan

Sep 2015 ~ July 2016

Postdoctoral Fellow

Max Planck Institute for Chemical Physics of Solids, Dresden, 01187, Germany

Principal investigator: Prof. Liu-Hao Tjeng

Aug 2014 ~ Sep 2015

Postdoctoral Fellow

Institute of Physics, National Chiao Tung University, Hsinchu, 30010, Taiwan

Principal investigator: Prof. Ying-Hao Chu, Prof. Jiunn-Yuan Lin

July 2013 ~ July 2014

Doctoral Scholar Fellow

Visiting Scholar

Advanced Light Source, Lawrence Berkeley National Laboratory, CA, 94720
USA

Principal investigator: Prof. Elke Arenholz

Aug 2009 ~ July 2014

Ph. D.

Department of Materials Science and Engineering, National Chiao Tung
University, Hsinchu, 30010, Taiwan

Advisor: Prof. Ying-Hao Chu

Aug 2005 ~ July 2009

B. Sc.

Department of Materials Science and Engineering, National Chiao Tung
University, Hsinchu, 30010, Taiwan

Academic Awards

1. The 8th (2020) Outstanding Young Scholar Awards from Foundation for the Advancement of Outstanding Scholarship.
2. The 18th Y. Z. Hsu Scientific Paper Award (2020).
3. 2019 Taiwan Outstanding Young Physicist Award.
4. Ministry of Science and Technology (MOST) Young Scholar Fellowship.

Book Chapters

1. **J. C. Yang**, R. Ramesh, and Y. H. Chu, “Multiferroic Thin Films”, Wiley Encyclopedia of Electrical and Electronics Engineering, 2014 (Published Online: 16 MAR 2015, DOI: 10.1002/047134608X.W8235).
2. **J. C. Yang**, and Y. H. Chu, “Handbook of Magnetism: Multiferroics”, Taiwan Associate for Magnetic Technology (in press).
3. 磁性科技與應用，師範大學出版，出版日期 / 2017/04/01。
